SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT

OFFICE OF STATIONARY SOURCE COMPLIANCE/BRANCH F

MEMORANDUM

DATE: January 11, 1993
TO: Aerospace, Chemical, Electronics, and Rubber Operations Team
FROM: David E. Schwien, Sr. Manager /s/ DES
SUBJECT: Change of Operator [Rule 301(c)(2)]

A review of Rule 301(c)(2) suggests that the new owner shall pay the new permit fee for Change of Operator *only* if the previous owner actually had a *Permit to Operate* on that particular piece of equipment. It has been determined that this is not correct. A new owner may also pay the fee for Change of Operator if the previous owner had a *Permit to Construct* as long as the other provisions of Rule 301(c)(2) are satisfied.
